Table Data:

Company Name	Sector	Energy (kgCO2)	Waste (kgCO2)	Business Travel (kgCO2)	Month	Year
Adidas	Other	3487.11	850.00	577.50	Nov	2024
DHL Group	Other	6035.90	70.00	2887.50	Nov	2024
SAP	Information Technology (IT)	418.39	286.00	1884.47	Nov	2024
Shell	Oil and Gas	2554.76	330.00	577.50	Nov	2024

Energy-efficient Equipment: Upgrading lighting systems to LEDs, improving insulation, and using energy-efficient appliances help minimize electricity consumption, reducing emissions by monthly.

Recycled Materials in Production: Using more recycled materials instead of virgin resources reduces the need for extraction, transportation, and processing, which all contribute to emissions.

Electrifying Fleet: Using more recycled materials instead of virgin resources reduces the need for extraction, transportation, and processing, which all contribute to emissions.
